Leaving Boomer's Room:

Mother Nature:

Oh, well what are you doing up so early? Did you not want to sleep in?

Boomer:

No.

Father Time:

Then maybe he'd like to help me in my office? I could use someone to pass me tools.

Mother Nature:

If he's too young to help me garden, he's too young to hold power tools.

Father Time:

My office is clean

Mother Nature:

Gah! You and your dirt and germs! Come on Boomer, how about you help us clean the kitchen?
I'm sure we can find a job for you there.

Clicking on the Sink:

Mother Nature:

Maybe he can help with the dishes? I think that's a pretty safe bet.

Father Time:

What do you say, Boomer? I'm sure it won't take too long for us to finish if we work together.

Beginning of Dishwashing Minigame:

Mother Nature:

Come on, I'll show you how to wash the dishes. Ready?

Ending of Dishwashing Minigame:

Father Time:

Now look at that! He's a natural! How about I take over for the rest of the dishes?

Mother Nature:

Well, we can put chores on hold for a little, can't we? The weather is too gorgeous to speed all day over the sink.

Father Time:

But... the dishes-

Mother Nature:

Honey, the dishes can wait. We get good lake weather once every few months.

Father Time:

... You know what ? A little time off can't hurt. Let's go!

Leaving Boomer's Room:

Father Time:

Morning there, bud. Sleep well? Hey, what would you say to skipping out to the lake today?
Weather's beautiful, and I was hoping to test out a-

Mother Nature:

Not so fast, you two. We've got to clean up around here before we can go.

Father Time:

Oh, we could take a little time off!

Mother Nature:

Unfortunately, not if you want dinner tonight.

Father Time:

Darn. Well, if you need me, I'll be in my office.

Mother Nature:

Nope. Fridge is broken.

Father Time:

...Darn.

Mother Nature:

Come on you two. Let's get some work done. There are only so many hours in a day.

Clicking on the Sink:

Mother Nature:

Do you need any help?

Father Time:

Boomer is a smart kid. I'm sure he can figure it out. Though, I could stay near if you want company, son.

Choosing Mother Nature:

Father Time:

Sounds good, champ.. If you need me I'll be working on the fridge. Work never stops, you know?

Choosing Father Time:

Mother Nature:

Oh, okay... That's fine! I'll still be outside if you need me.

Beginning of Dishwashing Minigame(Nature):

Mother Nature:

I know your father is all about maximizing your time but you don't worry about that, alright? Nothing wrong with taking your time with things. It means you get to enjoy the people with you.

Ending of Dishwashing Minigame(Nature):

Mother Nature:

Good job on filling the basins before starting! It saves on water.

Beginning of Dishwashing Minigame(Time):

Father Time:

Let's try and finish this quickly. There's still so much to do around the house.

Ending of Dishwashing Minigame(Time):

Father Time:

You know, sometimes I wonder if there's any way to speed this whole process up.

Boomer:

If only the dishes could do themselves.

Father Time:

You know, why can't they? Oh Boomer, you've given me a fantastic idea!

Beginning of Gardening Minigame(Nature):

Mother Nature:

Thanks for joining me, Boomer! It's nice to work alongside people you care about.

Ending of Gardening Minigame(Nature):

Boomer:

I think it's pretty!

Garden - Childhood

Topic: intro to gardening: helping her move tiny plants (teaching gentleness and openmindedness)

Mother Nature (MN): Look closely, we need to put the plant you've been raising with their friends.

Boomer (BMM): Are they lonely?

MN: Yes they are lonely without their friends. So we have to help them and treat them gently and—

BMM: kindly?

MN: That's right. We have to respect and take care of them and their home, the Earth.

BMM: okay mommy

Garden - Adolescence

[what they want from boomer]

Topic: responsibility of knowing bad and good plants and their roles (how weeds are not inherently bad but in some cases they need to be removed for the betterment of the planter, but we keep them to make fertilizer) (cause and effect)

I hope you continue to understand the consequences of your actions and interactions with others
